

PLATFORM GUIDE • PART 1

How to Install on iPhone & iPad (Safari)

Apple iOS requires saving through Safari's native Share menu. No App Store login or download wait needed!

1 Open Link in Safari

Navigate to paulzhub.github.io/Bible-in-92-Days/ in the **Safari** browser. (If viewing inside Instagram or WhatsApp, tap the Safari compass icon in the corner first).

2 Tap the Share Button

At the bottom of your Safari screen, tap the **Share icon** (a blue square with an arrow pointing straight up ↗).

Located at bottom-center toolbar

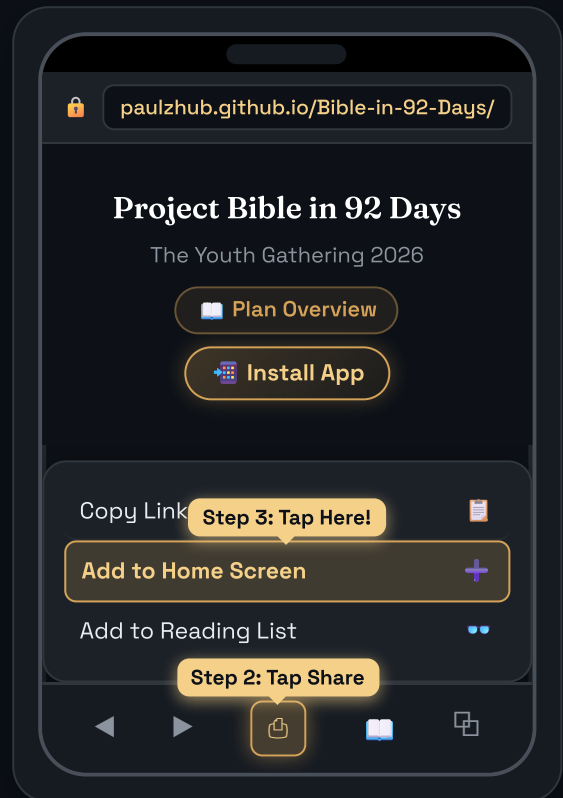

3 Select "Add to Home Screen"

Scroll down the sharing sheet options and tap **Add to Home Screen** (marked with a square + icon).

Scroll past Copy & Bookmark

4 Tap "Add" in Top-Right Corner

Confirm by tapping **Add** at the top right. The golden Bible 92 app icon will now appear directly on your home screen!

Important iPhone Note: If you open the link from an Instagram bio or WhatsApp group, you are in an in-app browser. Tap the ... menu or compass icon in the bottom corner and select **"Open in Safari"** to allow home screen installation.

Instant Launch

Loads in < 0.5s

100% Offline

All 66 books cached

Audio Bible

Plays with screen off

< 2 MB Storage

Zero phone clutter

PLATFORM GUIDE • PART 2

How to Install on Android (Chrome & Samsung Internet)

Android provides seamless one-tap installation directly from Google Chrome or Samsung Internet.

A

Method 1: Tap the In-App 'Install App' Button

On our website header right below **Plan Overview**, tap the golden  **Install App** button.

Fastest 1-Tap Method

B

Tap "Install" on the Prompt

A native Android dialog will appear asking "Install app? Project Bible in 92 Days". Tap **Install** to confirm.

Instant WebAPK creation

C

Method 2: Via Chrome 3-Dot Menu (Fallback)

If the button didn't pop up immediately: Tap the **three dots menu (:)** in the top-right corner of Chrome, then tap **"Install app"** (or **"Add to Home screen"**).

D

All Done! Launch from Home Screen

The app icon is placed on your home screen and in your Android App Drawer. Once launched, the website navigation bar disappears into full-screen immersive mode!

Desktop Installation & Troubleshooting FAQ

Install on Windows PC, Mac, or Chromebook for an immersive, distraction-free desktop window.

1 Click the Install Icon in Address Bar

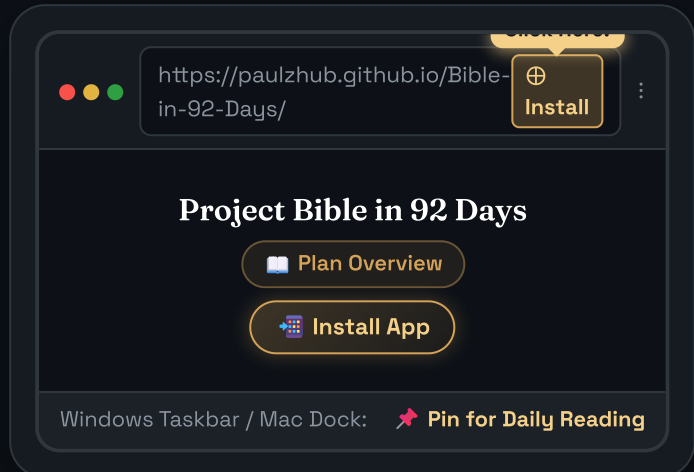

In **Google Chrome**, **Microsoft Edge**, or **Brave**, look at the right edge of the address bar. Click the **Install Icon** (⊕ or desktop monitor).

2 Click "Install" to Confirm

A dialog will ask to install *Project Bible in 92 Days*. Click **Install**. The app launches immediately in a clean, standalone desktop window.

3 Pin to Windows Taskbar or Mac Dock

Right-click the Bible 92 icon on your taskbar/dock and choose **"Pin to taskbar"** (or **"Keep in Dock"**) for one-click access every day!

COMMON QUESTIONS & ANSWERS

? Why doesn't "Install App" show on iPhone?

Apple blocks websites from prompting automatically. You must use Safari's native **Share** → **Add to Home Screen** button (see Page 1).

? Does the app work without internet?

Yes! The Service Worker caches the entire Bible portion, reader translations, and audio narration engine so you can read anywhere offline.

? Will it consume my phone storage?

No! Unlike 150MB App Store apps, this modern Progressive Web App uses **under 2 MB** total storage on your device.

? How do I get updates?

Updates install automatically in the background whenever you open the app while connected to the internet. No manual updates needed!
